Recovery Organization of Coffee County

P.O. Box 311194
Enterprise, AL 36331

August 30, 2007

Long term recovery efforts in Coffee County began within a few days after the March 1 tornado. Since that time a group of faith-based and social service agencies have been working diligently to put a long term recovery plan in place for those affected by the tornado. That group is now officially organized as the Recovery Organization of Coffee County (ROCC) using Wiregrass United Way as its fiscal agent. ROCC's goal is to help citizens return to an environment that is safe, sanitary and secure.

As of today, we have seen well over 300 clients (households). Clients have met with assigned case workers who have evaluated and verified their needs. Part of that process included being sure the client had exhausted all available resources such as FEMA, SBA loan, insurance settlements, etc. Those individuals who still have unmet needs are the ones the ROCC will be working with from this point forward. At this point, we have identified the families that will need major assistance from us in order to rebuild their homes and their lives.

ROCC leadership is actively seeking resources that will be required to accomplish our goal. Resources that will be needed will include not only monetary donations but also donations of goods and services. Building materials and skilled labor will be required and utilized as the rebuilding process moves forward.

Thank you for your interest to support us in our efforts. Contributions can be mailed to ROCC, C/O Wiregrass United Way, PO Box 311194, Enterprise, AL 36331. We pledge to use all resources responsibly.

Sincerely,

Mindy Collier
